

EXECUTIVE ALLIES

Escape the Status Quo.

BRANDING BIBLE

The complete guide to voice, visual identity, and sales collateral standards.

2026 Edition • Internal Reference • theexecutiveallies.com

What's inside:

Brand Foundation • Voice & Tone • Visual Identity • Typography • Color System • Logo Usage • Sales Collateral Standards • Dos & Don'ts • Sample Language

SECTION 01 BRAND FOUNDATION

Who We Are

Executive Allies is a fractional CFO, controller, and bookkeeping firm built for growth-stage businesses that need serious financial leadership without the overhead of a full-time hire. We specialize in the financial complexity that comes with ambition — job costing, WIP, multi-entity structures, rapid scaling, and capital events.

We are not a CPA firm. We are not a payroll vendor. We are a Strategic Financial Ally — the person in the room who tells you the truth, builds the plan, and stays until it works.

Mission

To give ambitious business owners a Strategic Financial Ally On Their Team — clear numbers, honest counsel, and a plan that moves them forward.

Tagline

Escape the Status Quo. — Primary tagline. Appears on every asset.

A Strategic Financial Ally On Your Team. — Dream outcome headline. Leads all sales assets.

Built for Builders. — Construction line (CX) sub-brand tagline.

Brand Values

These four words describe how we show up — in a meeting, in an email, in a deck, and in a document. Every piece of content we create should pass the four-value test.

TENACIOUS

We don't give up on a problem until it's solved. We dig deeper than anyone hired us to dig.

INNOVATIVE

We use modern tools and creative thinking to solve old financial problems in smarter ways.

SUPPORTIVE

We are the trusted advisor who makes the founder feel less alone. Always.

WATCHFUL

We catch what others miss. Numbers don't lie, and we read every line.

Service Tiers — The Value Ladder

Every prospect should be able to see where they are on this ladder and where they want to go. Always present all tiers; always note the recommended tier for the specific prospect.

SECTION 02 VOICE & TONE

Our voice is the most distinctive thing about us. It is how clients know they're talking to Executive Allies before they see a logo. Guard it — every writer, designer, and salesperson on the team should be able to identify it instantly.

Voice Descriptors

CLEAR <i>NOT jargon-heavy</i>	DIRECT <i>NOT wishy-washy</i>	WARM <i>NOT corporate cold</i>
CONFIDENT <i>NOT arrogant</i>	SPECIFIC <i>NOT vague</i>	HUMAN <i>NOT AI-ish or sterile</i>

The Voice Test

Before publishing any piece of copy, ask: Could this sentence have come from any CPA firm in the country?

If yes — rewrite it. Executive Allies copy should be identifiable even without a logo on it.

Writing Rules

- Lead with the Dream Outcome, not the deliverable. Not "We provide monthly bookkeeping" — "You'll finally know if you're making money."
- Use plain numbers and specific time frames: "10 business days," "first 30 days," "\$2,003/week." Specificity builds trust.
- Write in second person (you / your). The client is the hero; we are the ally.
- Keep sentences short. One idea per sentence. One idea per paragraph.
- Never use the words: utilize, leverage (as a verb), synergy, streamline, or robust.
- Speak to the owner's fear first, then the outcome. "Tired of guessing your cash flow? Here's what the next 90 days actually look like."
- Close every asset with a clear next step. Never leave the reader asking "What do I do now?"

Dos & Don'ts — Copy Examples

✓ DO	✗ DON'T
"You'll know your numbers before your bank does."	"We provide comprehensive financial reporting services."
"10 business days to onboard. First month is a 30-	"Our onboarding process is streamlined for

day success plan."	efficiency."
"We dig deeper than anyone hired us to dig."	"We leverage best-in-class financial solutions."
"If something's off, we catch it before it costs you."	"Our robust platform offers real-time synergy."
"A Strategic Financial Ally On Your Team."	"Outsourced CFO and Bookkeeping Services."

SECTION 03 COLOR SYSTEM

Primary Palette

Every piece of Executive Allies collateral draws from the same six-color system. Use them in the right roles — never improvise.

		
Navy #1B365D Headers, primary UI, trust	Teal #2CB8C8 Energy, movement, emphasis	Gold #C49A26 CTAs, chips, key moments
		
Cream #FBF7EF Page backgrounds, warmth	Ice Blue #EAF1F8 Soft cards, secondary bg	Charcoal #1F1F1F Body text, default type

Construction Line (CX) Accent

Terracotta is reserved exclusively for construction-industry materials. Any asset targeting general contractors, specialty trades, developers, or home builders should carry the terracotta accent.

		
Terracotta #B85042 CX line only — signals construction at a glance	White #FFFFFF Reversed text on dark backgrounds	Light Gold #F5EDD3 Subtle backgrounds behind gold highlights

Color Usage Rules

- Navy + Gold is the primary trust combination. Use for all headers, covers, and authoritative sections.
- Teal signals action and movement. Use for subheaders, supporting callouts, and progress indicators.
- Gold is reserved for CTAs, chips, and moments that demand attention. Never use gold as a background color on large areas without a specific design reason.
- Cream is the page color for all printed and digital collateral. Never use plain white as a page background.
- Terracotta appears on CX materials only. Keep it off general-audience pieces to preserve its signal value.

-
- Never use colors outside this palette. No gradients. No drop shadows on type.

SECTION 04 TYPOGRAPHY

Typography is the second most recognizable element of our brand after our voice. The serif/sans pairing communicates "executive credibility + human readability." Never swap these for generic alternatives.

DISPLAY / HEADLINES

Georgia

(Eras Bold ITC in final print)

Covers, section headers, tier names, all primary headlines. Always bold. Conveys authority and warmth.

BODY / SUPPORTING COPY

Calibri

(Amasis MT Pro Medium in final print)

All body text, bullet points, tables, footnotes, and form labels. 11pt default. Prioritize readability.

SIGNATURE / ACCENT

Segoe Print — "Escape the Status Quo."

Reserved exclusively for the tagline. Never use Segoe Print for any other purpose. It is the brand's handwriting — use it sparingly so it retains its power.

Type Scale

ELEMENT	FONT	SIZE	STYLE
Cover title	Georgia	28–36pt	Bold, white on navy
Section header	Georgia	22pt	Bold, white on navy
Page headline (H1)	Georgia	18pt	Bold, navy
Subheader (H2)	Georgia	14pt	Bold, navy, teal underline
Body text	Calibri	11pt	Regular, charcoal
Small labels / kickers	Calibri	9pt	Caps, gold or teal
Footnotes / fine print	Calibri	9pt	Regular, #888888
Tagline accent	Segoe Print	11–14pt	Italic, navy or gold

SECTION 05 LAYOUT & DOCUMENT STANDARDS

Document Anatomy

Every Executive Allies document shares the same skeleton. Prospects should recognize the brand before they read a word.

- 01 **NAVY HEADER BAND**
Full-width navy background with gold left-edge bar (140 DXA). Document title and company name in white Georgia.
- 02 **THIN GOLD ACCENT BAR**
A 4–6pt gold rule beneath the header band. Separates the header from the page body.
- 03 **LEFT-MARGIN GOLD RULE**
A thin gold vertical line along the left edge of section banners (not body text). Signals a new section.
- 04 **SECTION BANNERS**
Navy block with gold kicker text (SECTION NN) + white section title. Use the same navy/gold treatment as the header.
- 05 **CREAM BACKGROUND**
All page backgrounds are Cream (#FBF7EF), never white or gray.
- 06 **BODY CONTENT ZONE**
1-inch margins on all sides. Body text in Calibri 11pt, charcoal. Single-space body, double-space between paragraphs.
- 07 **GOLD CTA BLOCK**
Every asset ends with a "Next Step" block anchored in gold. Include a link, QR code, or booking URL.
- 08 **FOOTER RULE**
Thin charcoal rule above the footer. Footer contains website, email, phone, and the tagline in gold italic.

Required: The Next Step Block

The single most important layout rule: every sales or marketing asset must end with a clear, gold-accented call to action. The prospect should never have to wonder what to do next.

NEXT STEP BLOCK — REQUIRED ON EVERY ASSET

Flyers: "Scan the QR or visit theexecutiveallies.com to book your free strategy session."

Questionnaire: "Complete and return to your Executive Allies contact. We'll review and be back within 48 hours."

Sales Deck: "Choose your tier. Sign the engagement letter. Onboard in 10 business days."

Proposal: "Sign today. We start your 30-day success plan the moment we receive your signature."

SECTION 06 SALES COLLATERAL STANDARDS

Executive Allies runs a five-stage sales funnel. Every asset has a single job: hand the prospect off to the next stage. Nothing in the funnel exists to be admired — it exists to move the prospect forward.

The 5-Stage Sales Funnel

01 WARM WELCOME <i>Flyer (General or CX)</i>	02 DISCOVERY <i>Questionnaire</i>	03 STRATEGY SESSION <i>Sales Presentation</i>	04 PROPOSAL <i>Engagement Letter</i>	05 ONBOARDING <i>Week-by-Week Roadmap</i>
--	---	---	--	---

Asset-by-Asset Standards

Warm Welcome Flyer (General) 8.5×11 single page. Cream background. Dream Outcome headline leads. Three pain-archetype pillar cards. Value Ladder tier row. Footer with QR + "Let's Talk" CTA. Print on uncoated cream stock.

Warm Welcome CX Flyer Same format as general flyer but with terracotta accent and construction-specific language: WIP, job costing, retainage, bonding, progress billing. Include a "Who We Serve" segmentation row (GCs, Specialty Trades, Developers, Home Builders).

Discovery Questionnaire 8-page document. 15-minute completion target. Sections: Company Snapshot, Current State, Goals, Cost of Status Quo, Leadership Gap, Engagement Priorities, Anything Else. Every section maps to a slide in the sales deck. Send as fillable PDF.

Sales Presentation 13 slides. Structure: Cover → Dream Outcome → Cost of Status Quo → Meet Your Team → Service Overview → Value Stack → Trust Badges → Case Snapshot → Investment Options → Next Steps → Cover (repeat). Always include "Recommended for You" badge on one tier.

Engagement Letter / Proposal Open with a one-paragraph "What We Heard From You" section. Selected tier, start date, and 30-day deliverables in the first half. Legal language in the back half. Include Risk Reversal callout. Match the 2026 brand system visually.

Onboarding Roadmaps One page per tier. First-30-days format with weekly milestones. Include a named "Your Team" block at the top. Produce one for each tier: Green Circle, Blue Square, Black Diamond, Double Black, Full VCFO.

SECTION 07 THE GRAND SLAM OFFER FRAMEWORK

Every Executive Allies sales asset is built on Hormozi's Grand Slam Offer framework. Before finalizing any piece of collateral, verify it delivers all four ingredients.

INGREDIENT	HOW WE APPLY IT
DREAM OUTCOME	Every asset leads with: "A Strategic Financial Ally On Your Team." The prospect is never buying bookkeeping — they are escaping the status quo and gaining financial clarity they can trust.
PERCEIVED LIKELIHOOD	Stack credibility in four places: (1) Named team members with experience. (2) Trust Badges: 10+ years, 100+ clients, 95% retention, SOC-safe. (3) Case study ROI stats. (4) The tier ladder — prospects see themselves on a specific rung.
LOW TIME DELAY	"10 business days to onboard" appears on every asset. The questionnaire defines a 90-day success milestone so the prospect is buying a fast, measurable outcome — not an open-ended engagement.
LOW EFFORT & SACRIFICE	The questionnaire is a 15-minute snapshot. The sales deck's Investment Options slide includes a "Recommended for You" badge. The engagement letter is the shortest document in the package.

Risk Reversal — Required on Every Proposal

FIRST-30-DAYS GUARANTEE

If Executive Allies does not deliver [specific agreed milestone] in the first 30 days, we will [specific remedy]. Include this language in every engagement letter and reference it on the final slide of every sales presentation. Risk reversal is the difference between a prospect who hesitates and one who signs.

SECTION 08 LOGO & BRAND MARK USAGE

The Executive Allies logo mark is a compass/target with a checkmark and upward arrow — symbolizing precision, accountability, and growth. The wordmark is set in a refined serif with generous letter-spacing. Three color versions exist; each has a specific role.

Primary Logo — Navy (Default)

Use on cream, white, and all light backgrounds. This is the version that appears on most documents, flyers, letterhead, and the website. When in doubt, use this one.

On Cream — PRIMARY

WHEN TO USE

- ✓ All printed documents (flyers, proposals, letterhead)
- ✓ Website header and favicon base
- ✓ Email signatures
- ✓ Slide decks on white or cream backgrounds
- ✓ Any light-background collateral

Accent Logo — Gold Gradient (Premium)

Use on dark navy backgrounds for a premium, high-end feel. Reserved for cover pages, social graphics, and event materials where you want the brand to feel elevated.

On Navy — PREMIUM

WHEN TO USE

- ✓ Document cover pages (navy background)
- ✓ LinkedIn banners and social graphics
- ✓ Event signage and display materials
- ✓ Branded merchandise and swag

Utility Logo — Black (Single-Color)

Use when color printing is unavailable, on textured or photographic backgrounds, or for embossing, engraving, and single-color production.

Black — UTILITY

WHEN TO USE

- ✓ Black & white printing
- ✓ Embossing, engraving, laser etching
- ✓ Fax headers and legal documents
- ✓ Watermarks (at reduced opacity)

Logo Dos & Don'ts

✓ DO

Use Navy logo on cream, white, and all light backgrounds — it is always the safe choice.

Use Gold logo on navy backgrounds only — this is its only approved application.

Maintain clear space equal to the height of the 'E' in the wordmark on all sides.

Use the CX sub-brand lockup (with 'Built for Builders' subtitle) on construction-specific materials.

✗ DON'T

Place any logo version on teal, terracotta, or busy photographic backgrounds.

Stretch, skew, rotate, recolor, or add effects (shadows, glows, outlines) to the logo.

Use the Gold logo on a light background — it will wash out and look incorrect.

Recreate or redraw the logo mark. Always use the approved files.

SECTION 09 QUICK REFERENCE — ONE-PAGE RULEBOOK

Post this page anywhere people produce client-facing content. If they follow only this page, the brand will stay intact.

Colors

Navy #1B365D — headers, trust
Teal #2CB8C8 — energy, movement
Gold #C49A26 — CTAs, key moments
Cream #FBF7EF — all backgrounds
Charcoal #1F1F1F — body text
Terracotta #B85042 — CX only

Typography

Headlines: Georgia Bold
Body: Calibri 11pt
Tagline only: Segoe Print italic

Voice

Lead with the Dream Outcome.
Use specific numbers and time frames.
Write in second person (you/your).
End every asset with a Next Step.
If it sounds like any CPA firm — rewrite it.

Layout

Navy header band + gold left bar.
Gold rule beneath the header.
Cream page background always.
Gold accent on every CTA.
Footer: website + email + phone + tagline.

THE BRAND QUESTION

Before you publish anything, ask:
If it could have come from any CPA firm — rewrite it.

Escape the Status Quo.
